**ATTORNEY-EXAMINER INTERVIEW SUMMARY**

Mail Stop Patent Application  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

The undersigned left two telephonic messages for Examiner Yaen on November 13, 2007 regarding the allowed application. Two elements of the U.S. Patent and Trademark Office files seem to be incomplete.

First, claims 40 and 41 are not acknowledged as pending or allowed. These claims are clearly shown in the appendix to the appeal brief, as well as in the amendment filed September 13 and 25, 2006. Recognition and allowance of these claims is requested.

Second, applicants did not receive an initialed copy of one sheet of U.S. Patent and Trademark Office form 1449 that was submitted April 24, 2003. The sheet is shown in PAIR but it has not been initialed and returned to applicants. Three US patents by Spriggs et al. are shown on that sheet. Applicants request that the examiner initial a copy of the form 1449 to confirm his consideration of the reference citations submitted.

Respectfully submitted,

Dated: November 13, 2007
